In addition to implementing workplace safety policies and procedures regarding equipment handling and proper protective equipment, employers realize that they can take proactive measures regarding their employees’ health to reduce workplace accidents. These procedures, including pre-employment physicals and drug screens, are routinely handled by the staff at Business Health Services. Our team works with employers throughout the region to offer the one-stop shopping they need for their occupational health and wellness needs.

Acute Injury Care
One of our main goals is to assist you and your employees in the case of a workplace injury while minimizing time away from work. A key to this goal is prompt and appropriate care to your injured employees. We offer a range of acute injury services including:
- Clinic treatment
- 24-hour urgent care services through the Emergency Department
- Complete diagnostic testing
- Return-to-work authorizations

Case Management & Referrals
Our medical professionals are available to discuss case specifics, and our providers are accessible to coordinate care and specialist referrals which may include physical and/or occupational therapy. Before your employee leaves our clinic, our staff will schedule any necessary follow-up appointments.

Our team approach recognizes the important role of the employer in providing a safe work environment to control occupational illness and injury costs. We promote open communication to help employees return to work.

Case Management and Referrals include:
- Work status faxed to your office following an employee visit
- Timely reporting outcomes of drug and alcohol tests with Escreen
- Network of referral specialists who understand employer needs
- Occupational health providers coordinating care
- Focus on timely return to work including light duty assignment as appropriate

Wellness Programs & Corporate Health Screening
We can work with you to build on-site wellness and health screening programs suited to your company’s needs. Options available for on-site programs include but are not limited to:
- Blood pressure
- Blood sugar
- Cholesterol
- Triglycerides
- Colon cancer home screening kit
- Prostate Specific Antigen (PSA) testing for prostate cancer screening
